reviewing

3 papers had only 2 reviews

8 papers had 4 reviews

1 paper had 6 reviews

49 papers had 3 reviews
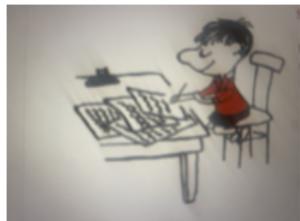

easychair matching algorithm is maybe not ideal

some reviews were never submitted

some reviews were extremely informative

rebuttal useful but also costly

many thanks to the external referees !

FSCD 2023 best paper award by junior researchers

(thanks to Sandra Alves!)

best paper award by junior researchers: observations

condition: at least half of the contribution is by a junior author

15 (!) out of 30 accepted papers where eligible

3 single-author papers

3 co-authored with a PC member

PC members who were not co-author could vote

votes: 12 out of 26 = 31 minus 3 co-author minus 2 abstain

best paper award by junior researchers: observations

condition: at least half of the contribution is by a junior author

15 (!) out of 30 accepted papers where eligible

3 single-author papers

3 co-authored with a PC member

PC members who were not co-author could vote

votes: 12 out of 26 = 31 minus 3 co-author minus 2 abstain

questions:

condition?

are PC members eligible? (no)

who votes? (declare CoI)

invited talks

CADE-FSCD invited talks:

Mateja Jamnik (Cambridge, UK):

How can we make trustworthy AI?

Maribel Fernández (King's College, UK):

Nominal techniques for software specification and verifications

FSCD invited talks:

Giulio Manzonetto (Paris 13, France):

A lambda calculus satellite

Akihisa Yamada (AIST, Japan):

Termination of term rewriting: foundation, formalization, implementation, and competition

nine FSCD workshops

before:

DCM 2023 (13th)

LFMTP 2023

LSFA 2023 (18th)

TLLA 2023 (7th)

UNIF 2023 (37th)

WiL 2023 (7th)

WPTE 2023 (10th)

during:

HOR 2023 (11th)

IFIP WG 1.6

LIPIcs proceedings

open access

excellent support from LIPIcs

excellent webpages

reasonable deadlines

60 euro per paper so 2040 euros in total
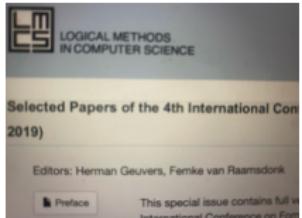

20 pagers per paper excluding references

thanks to Michael Wagner and the LIPIcs team

post-conference special issues

- one paper or two papers invited for submission to TheoretiCS

- special issue of LMCS

- to be done

hybrid

useful:

3 out of 30 talks could not have been given otherwise

we could advertise more

we are learning

many thanks!
